CYLINDER ROLLER

سلنډر رولر

FEATURES:

Agro1 Compacter Roller is a versatile tool suitable for various applications, including agriculture, road maintenance, and rough terrain surfaces. This cylindrical roller features a water-fill option to adapt to specific work requirements.

Built with a heavy-duty, all-welded frame, it can be towed securely with any tractor ranging from 35-75HP and above.

The robust draw bar ensures safe and stable towing, while the rounded ends gently interact with surfaces and facilitate easy turning. The roller boasts a corrosion-resistant black powder-coat finish, ensuring durability and longevity.

Design the roller for easy attachment and detachment from tractors.

OPTIONALS: Extra Weight of 110 KG Installation. Allow users to add or remove weights to adjust the compaction pressure.

OPTIONALS: Transport Wheels (Manual and Hydraulic) installation for easy transportation and storage.

OPTIONALS: Customizable drum patterns for different soil types and applications.

OPTIONALS: Water spray system to help reduce dust and improve compaction in dry conditions.

OPTIONALS: LED lights or flags for visibility enhancements for increased safety in low-light

DETAILS	MODEL
	AGMT/R/7
Power Source	35 — 75 HP
Drum Dia	1520 mm
Weight of Equipment	3250 Kg
Water Capacity	1300 Lit
Width Size	2130 mm
Construction	Fully Tractor Towable and to be attached with Rear Hook
Options	- Hydraulic Lifting arrangement - Manually Transport arrangement
